How to use this guide

We've curated 100 distinct AI money-making opportunities and organised them into 10 categories. Each idea includes a concise **how-to** so you can evaluate and start quickly.

Ideas are designed to be started by individuals or small teams — no large budgets required. Many can be validated in a weekend. Filter by category, pick your top three, and go.

Start narrow	Pick a specific niche rather than going broad. Depth beats breadth early on.
Validate fast	Before building, sell manually. One paying customer proves demand.
Iterate quickly	AI tools change weekly. Stay close to new releases and adapt your offer.
Measure revenue	Vanity metrics lie. Track MRR, LTV, and CAC from day one.

CONTENT & MEDIA

1

Newsletter Operator

Launch a niche AI-curated newsletter. Use Claude to research, summarise and draft editions daily. Monetise via sponsorships and paid tiers on Beehiiv or Substack.

2

Faceless YouTube Channel

Create educational or entertainment videos using AI voiceovers, stock footage and AI-generated scripts. Monetise through AdSense and affiliates — no camera required.

3

Podcast Clip Machine

Sell a done-for-you service: take long podcast episodes and use AI to find the best 60-second moments, add captions, and deliver ready-to-post Reels/Shorts.

4

AI Ghostwriter

Offer ghostwriting for LinkedIn, X/Twitter, or Substack. Use AI to produce drafts fast, add your editorial polish, and charge premium rates for consistent posting.

5

SEO Content Agency

Build a small agency producing AI-assisted long-form SEO articles. Use tools like Surfer + Claude to rank client sites faster than traditional writers.

6

Children's Book Creator

Use AI image generators + AI writing to produce illustrated children's e-books. Sell on Amazon KDP with zero upfront printing costs.

7

Micro-Documentary Studio

Produce short AI-assisted documentary videos on niche topics. Monetise on YouTube, license to brands, or sell on stock platforms.

8

Local News Digest

Aggregate local news using AI, add commentary, and sell subscriptions to residents who want a quick daily brief. Works city by city at scale.

9

Translation & Localisation

Use AI to translate marketing content, websites, and videos into other languages. Charge a premium for human review layer — far faster than traditional agencies.

10

AI Scriptwriting Service

Write scripts for YouTube creators, ad agencies, and corporate videos using AI. Faster turnaround = more clients = higher revenue.

TOOLS & SOFTWARE

11

Chrome Extension Builder

Use AI coding tools to build simple Chrome extensions that solve one problem (e.g. LinkedIn bio writer, price tracker). Sell on the Chrome Store or as SaaS.

12

Prompt Marketplace

Build or curate a library of high-value prompts for professionals (lawyers, marketers, devs). Sell individual prompts or monthly subscriptions.

13

No-Code AI App Builder

Use Bubble, Glide or FlutterFlow plus AI APIs to build niche apps for small businesses. Charge a monthly retainer for hosting and updates.

14

AI-Powered Notion Templates

Create advanced Notion workspaces with embedded AI workflows. Sell on Gumroad or Notion's own marketplace — recurring updates justify ongoing sales.

15

Custom GPT Creator

Build and monetise custom GPTs via ChatGPT's store or as white-label products for businesses that want a branded AI assistant.

16

Internal Chatbot for SMBs

Build a RAG-based chatbot trained on a company's own documents. Charge a setup fee plus monthly SaaS subscription. Zero ML expertise needed with tools like Botpress.

17

AI Hiring Screener

Build a tool that screens job applications using AI, scores candidates against a rubric, and drafts initial outreach emails. Sell to fast-growing startups.

18

Invoice & Contract Automator

Build a tool that drafts contracts and invoices from simple inputs. Target freelancers and small agencies who waste hours on admin.

19

AI Browser Co-Pilot

Build a browser extension that sits alongside any website and helps users summarise, translate or rewrite content on demand. Charge a SaaS subscription.

20

Data Extraction SaaS

Build a tool that pulls structured data from PDFs, websites or emails using AI. Sell to logistics, legal, or finance teams who process documents manually.

EDUCATION & COACHING

21

AI Literacy Course

Create and sell a course teaching professionals how to use AI tools effectively in their industry. Position it as career-critical upskilling.

22

Prompt Engineering Bootcamp

Run live cohort bootcamps teaching prompt engineering. Charge per seat and license the curriculum to companies for team training.

23

Personalised Tutor App

Use AI to build a tutoring app that adapts to a student's weak points and learning pace. Monetise via subscriptions or school licensing.

24

AI Career Coach

Offer AI-powered CV reviews, cover letter generation, and interview prep as a premium coaching subscription. Automate much of the delivery.

25

Language Learning Partner

Build or operate a conversational AI language learning product. Focus on a specific language pair and community for rapid word-of-mouth growth.

26

Corporate AI Training

Package AI productivity training for corporate teams. Sell workshops and ongoing e-learning access to L&D; departments at mid-to-large companies.

27

YouTube Study Channel

Create AI-assisted study guides and explainer videos for students. Monetise via ads, affiliate links to textbooks, and premium membership.

28

Exam Prep Platform

Build a platform that generates unlimited practice questions and detailed explanations for specific exams (e.g. Bar, CPA, IELTS). Charge per exam or subscription.

29

Coding Bootcamp Accelerator

Use AI pair-programming tools to help students learn to code 2x faster. Offer an AI-augmented bootcamp at a lower price than traditional competitors.

30

Parenting & Child Dev Coach

Use AI to deliver personalised parenting tips, activity ideas and developmental milestones tracking. Sell as a mobile subscription app.

MARKETING & SALES

31

AI Ad Creative Studio

Produce static and video ad creatives using AI tools. Offer brands fast, affordable creative testing — 20 variations in the time it takes agencies to do 2.

32

Cold Email Agency

Use AI to personalise cold emails at scale for B2B clients. Charge per lead generated or a monthly retainer. Hyper-personalisation = higher reply rates.

33

Product Description Service

Bulk-write optimised e-commerce product descriptions for Amazon or Shopify stores. Use AI to process hundreds of SKUs per day — price per word or per SKU.

34

Social Media Ad Copywriter

Specialise in short-form ad copy for Meta, TikTok and Google. AI handles drafts; your expertise handles strategy. Sell retainer packages to DTC brands.

35

AI PR Assistant

Use AI to draft press releases, pitch journalists, and monitor brand mentions. Offer as a done-for-you PR service for startups that can't afford agencies.

36

Review Response Service

Offer businesses AI-drafted responses to their Google, Yelp, and Trustpilot reviews. Monthly subscription; minimal human time per client.

37

Influencer Brief Generator

Build a tool that creates detailed influencer briefs from brand guidelines. Sell to marketing agencies and in-house social media teams.

38

Competitor Intelligence Reports

Use AI to scrape and analyse competitors' content, pricing, and ads. Sell weekly intelligence reports to brand marketers and VC-backed startups.

39

WhatsApp Marketing Automator

Build AI-powered WhatsApp drip campaigns for e-commerce brands. Personalised messages = higher open rates than email. Huge demand in emerging markets.

40

Pitch Deck Writer

Use AI to draft and design investor pitch decks. Charge a flat fee per deck. Target pre-seed founders who need something polished fast.

DESIGN & CREATIVE

41

AI Stock Image Creator

Generate and sell original AI images on Adobe Stock, Shutterstock or your own store. Focus on underserved niches with high commercial demand.

42

Brand Identity Package

Offer fast, affordable brand identity kits (logo, colours, fonts, tone) using AI design tools. Target solopreneurs and early-stage startups.

43

Print-on-Demand Art Shop

Use AI to generate designs for T-shirts, mugs, and posters. Sell through Redbubble, Merch by Amazon, or your own Shopify store — zero inventory.

44

AI Interior Design Renders

Produce photorealistic interior design concepts using AI tools. Sell to homeowners renovating or real estate developers marketing new builds.

45

Thumbnail Design Service

Use AI to design high-CTR YouTube thumbnails. YouTubers pay well for thumbnails that demonstrably improve click-through rates.

46

Children's Illustration Service

Create custom illustrated characters and scenes using AI image tools. Sell to self-publishing authors and educational content creators.

47

AI Fashion Designer

Generate clothing and textile designs using AI, then license them to manufacturers or sell as digital files to independent designers.

48

Virtual Staging Service

Use AI to digitally stage empty property photos for real estate listings. Charge per photo; high volume, low labour.

49

Social Media Template Pack

Create AI-assisted Canva or Figma template packs for specific industries. Sell on Creative Market or directly through your own site.

50

AI Music & Jingles Service

Produce custom background music and jingles using AI audio tools. Sell to YouTubers, podcasters, and ad agencies who need royalty-free audio fast.

FINANCE & DATA

51

Personal Finance Newsletter

Curate and explain financial news using AI. Monetise via paid subscriptions, affiliate links to fintech apps, and sponsored slots.

52

Tax Prep AI Assistant

Build or offer an AI-assisted tax prep service for freelancers and small businesses. Partner with a licensed accountant for the sign-off layer.

53

Crypto Portfolio Analyser

Use AI to provide plain-English portfolio analysis and DeFi risk breakdowns. Sell as a SaaS tool or premium newsletter.

54

VC Deal Flow Screener

Build an AI tool that screens startup decks and scores them against investment criteria. Sell to angel investors and small VC funds.

55

Earnings Call Summariser

Use AI to summarise and extract key metrics from earnings calls within minutes of release. Sell to retail investors and financial analysts.

56

Grant Writer for Nonprofits

Use AI to research and draft grant applications. Charge nonprofits a fixed fee or percentage of successful grants. High-value, repeatable work.

57

Insurance Quote Comparator

Build an AI tool that compares insurance options in plain language and recommends the best fit. Monetise via affiliate commissions.

58

E-commerce Analytics Dashboard

Build an AI-powered dashboard that surfaces actionable insights from Shopify/WooCommerce data. Charge a monthly SaaS fee per store.

59

Real Estate Deal Analyser

Build a tool that calculates ROI, cap rates, and cash flow for property investments using AI. Sell to property investors as a subscription.

60

Fraud Detection API

Train and sell an AI model that detects fraudulent transactions or fake reviews. Target e-commerce platforms and marketplaces.

HEALTH & WELLNESS

61

AI Meal Planner App

Build an app that generates personalised meal plans and shopping lists based on dietary goals and preferences. Monetise via subscriptions or supermarket affiliate deals.

62

Fitness Content Creator

Use AI to produce workout plans, form guides, and motivational content for social media. Monetise via coaching, merchandise, and platform ads.

63

Mental Wellness Journaling App

Build an AI journaling app that analyses mood patterns and suggests CBT-inspired prompts. Charge a monthly subscription; growing demand in corporate wellbeing.

64

Medical Transcript Summariser

Use AI to summarise doctor-patient appointment notes for clinics. Save GPs hours per week — sell as a HIPAA-compliant SaaS subscription.

65

Supplement Recommendation Engine

Build an AI tool that recommends supplements based on health goals and blood test results. Monetise via affiliate partnerships with supplement brands.

66

Corporate Wellness Platform

Sell AI-powered wellness check-ins and stress management tools to HR teams. Position as a measurable employee wellbeing benefit.

67

Sleep Optimisation Coach

Offer AI-powered sleep coaching that analyses user habits and gives personalised recommendations. Subscription model; low churn due to genuine behaviour change.

68

PT Programme Generator

Build a tool that creates personalised training programmes for personal trainers to give clients. Charge trainers a monthly fee — they pass cost to their clients.

69

Chronic Condition Support App

Use AI to provide symptom tracking, medication reminders, and plain-language condition education. Partner with patient advocacy groups for distribution.

70

Fertility & Women's Health Tool

Build an AI assistant that helps users understand cycles, fertility windows, and related health data. Monetise via subscriptions and telehealth referrals.

LEGAL & PROFESSIONAL

71

Contract Reviewer

Build an AI tool that highlights risky clauses in contracts in plain English. Target freelancers and SMBs who can't afford a lawyer for every agreement.

72

Legal Document Drafter

Use AI to draft NDAs, terms of service, and employment contracts. Charge a flat fee per document; fast and far cheaper than law firms.

73

Immigration Form Assistant

Help applicants fill out complex immigration forms using an AI-guided flow. Charge a service fee; massive underserved market globally.

74
